

We answer the challenge

Licensed Outfitter #1037

*Susan & Dean
Billington*

Bull Basin Guides and Outfitters, LLC

Bull Basin Guides and Outfitters was founded, and is owned and operated by Dean and Susan Billington, both Colorado natives. Over the years as a professional outfitter Dean has come to understand all the factors required to provide the type of quality trips that sportsman should expect. Through hard work and dedication the company has grown into one of the most respected outfits in the West, providing quality hunting and fishing trips for clients from all over the world.

Having hunted with his father since the age of 8, Dean has developed a love and respect for hunting and the outdoors that only a true sportsman can understand and appreciate. It is under this foundation and philosophy that Bull Basin Guides and Outfitters operates today.

Bull Basin Guides and Outfitters main goal is to provide our clients with a quality "total outdoor experience." We feel that this includes much more than simply "harvesting" an animal. It includes a guide and his hunter sharing the enjoyment and anticipation of an uncrowded forest at daybreak, the endless tales that are shared among friends around the campfire, the aching muscles caused by following that big herd bull over one more ridge, and the feeling in good bye, at least until next year.

Bull Basin Guides and Outfitters takes great pride in the private ranches that we operate on, and are anxious to share all they have to offer with our guests. We are bonded, insured, and licensed (#1037) with the State of Colorado. Outfitting permits have been secured to legally operate on the Arapaho National Forest, and on B.L.M. lands in the Glenwood and Kremmling Resource Areas.

Hunting

Bull Basin Guides and Outfitters offers a great variety of big game hunting opportunities throughout the fall seasons.

We offer hunts for trophy elk, mule deer, black bear, antelope and mountain lion. Hunters have options as to which weapon they wish to pursue the species with, including rifle, muzzleloader and archery. The hunting season structure here in Colorado can also at times offer the hunter an opportunity to hunt a combination of game in the same hunt. Our hunts typically begin in late August and run through the end of March.

With over 20 years of experience in the outfitting industry, we believe the best opportunities for a great experience are found on properly managed private ranches, and that is where we have placed our focus. Over the years we have been able to establish and maintain exclusive hunting privileges on several of the finest private ranches for hunting in the west. We manage these ranches with a goal of always improving the quality of the game on these properties, a practice which has resulted in consistent world class hunting for our clients.

Our experience has taught us that there is a special combination of factors needed by a quality outfitter to produce the type of experiences that serious sportsmen deserve and expect. These factors require

us to work hard to understand our client's expectations, and to clearly and honestly explain what services we and our staff can provide. We must possess an understanding of all planning and administrative issues that go into providing a great hunt, and be willing to help all clients through this process. We must always align ourselves with the best private ranches, and develop and follow wildlife management plans to ensure improved quality of game on an ongoing basis. We need to attract and retain the best guides, who are experienced, knowledgeable, friendly and hard working. Most importantly we need to always remember that it was a passion for hunting that led us to this profession. We need to appreciate and respect the importance of time spent in the field by serious sportsmen, and to treat everyday as opening morning in an effort to produce the type of experiences that our clients deserve and expect.

We have created a very helpful website to address all areas related to the services we provide. The site describes in detail all the types of hunts we provide including species, dates, fees, weapon choice, licensing, ranch and area descriptions, success rates, photos of game taken, references and more. Please visit our website at www.bullbasin.com to learn more about the great hunting opportunities we provide, or feel free to just give us a call for more information.

Fly Fishing

We are proud to offer our clients exclusive access to the finest private trout waters in the Rocky Mountains. Our anglers have the opportunity to choose between lakes, river or stream fishing when booking their trip with us. The centerpiece of our private water is Troublesome Creek. Anglers who have fly fished this great stretch of the Troublesome consistently rank it as one of the best trout waters they have ever experienced. With nearly four miles of intensely managed private fishing, its easy to see why the Troublesome Creek is so popular among today's most discriminating fly fishermen. Our success has resulted from simply providing what every angler is looking for, a truly private experience with great guides and a wonderful diversity of both trout and fishing challenges. The diversity is really what sets the stream apart from the rest, as anglers have the opportunity to test their skills in a number of different fishing situations, against a mix of the most formidable trout ever assembled. All of our waters are home to trophy rainbow, brown, cutthroat and brook trout. Our experienced and friendly staff of fly fishing guides are prepared to assist anglers of all ability levels. Visit our website or give us a call for more details on these great trips!

Booking Your Trip

We require a 50% deposit to secure your trip with us, and the balance for will be due prior to the start of the trip. Each guest will be given a written "client agreement", that outlines the details of the trip with us. We also provide our guests with a packet of information that helps in planning and preparing for the upcoming trip, including travel plans, licensing and a checklist of what to bring.

Because we limit the number of guests we can accommodate at a given time, spots fill up quickly, the sooner you can secure your plans with us the better.

Please feel free to contact us at anytime if you need anything or have any questions, we are always here to help.
